EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Irwin Aisenberg on October 21, 2004.

Non-elected claims 21 and 68-72 were canceled.

On line 1 of the abstract, the word "comprises" was changed to --includes--.

In the first sentence on page 1 of the specification, the phrase --, now abandoned-- was inserted after the phrase "application serial no. 09/155,406 filed December 2, 1998" so as to update the status of the parent application. On page 10, line 1 of the specification, the phrase "Figure 13 presents" was changed to --Figures 13A and 13B present-- since figure has an A and a B part to it.

2. Applicants are notified that a new set of formal drawings incorporating the change made to Figure 8 on September 22, 2003 must be filed.

3. The following is an examiner's statement of reasons for allowance: Application serial no. 10/642,498 is being allowed since none of the prior art of record teaches or fairly suggests an automatic diagnostic apparatus comprising a controller for controlling operation of the apparatus and for processing data, a sample container having the specific structure recited in independent claim 59 (renumbered 1), a rack and platform system including a rotor motor that operates to

spin the sample container to cause the heavier components of a sample in the container to separate from the light components, a sensing system including a syringe and an electrochemical immunoassay biosensor for performing an electrochemical immunoassay of the lighter components, wherein the syringe serves to draw a sample from the container through the biosensor, voltage supply means for applying a potential difference to the sensing system and output means for communicating processed data to a user.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
